

The Now Lifestyle **MUST DO CHECKLIST** for Business Success

Print this checklist off and then place a check or an "X" next to each task as you complete each action if you want to get up and running with the Now Lifestyle. This is a generic list without going into detail as far as what each section entails or how to use that section...Not to worry though because in each section we have training videos to show you exactly how to carry out a certain task. For example, creating a follow up email or joining the Facebook group (We are continually updating the member area for ease of use so this might look slightly different depending on when you downloaded it)

NOW ACADEMY: NLS Professional

There are five main tools for those paying at the Gold/Platinum/Enterprise membership levels, though there is also an upgrade option in the back office that is in addition to purchasing traffic and leads. Keep reading and checking off your training for those that take initiative and invest in their education on the following pages!

[NOW ACADEMY](#) (Be sure to check out this amazing upgrade offer): NLS Professional

- ___ **Personal Branding Blueprint:** Learn how to brand YOU first and foremost!
- ___ **Team Branding Blueprint:** Learn how to grow your team the right way!
- ___ **Email Marketing Mastery:** Become a master at email marketing
- ___ **Million Dollar Presentation Formula:** Blow your webinar visitors away with this formula

Remember you make a 50% commission on this upgraded product when your direct referral upgrades to this product...thus if TWO members upgrade, you break even on what you invested into this product...Anyone else and you are in profit for this product alone! You also

earn a 25% matching check bonus if one of those referrals sells one of these upgraded packages.

NOTE: If you do not own the level and someone you sponsor does upgrade to this level, you only earn a 25% commission and lose out on the check matching commissions from that member who has the product when you do not have the product. Not only is it amazing education but it is also a great high ticket offer to help your commissions over time.

Remember, no one should think they need to or can be able to learn this all in one day or week for that matter. Try to eliminate information overload and do a few tasks a day, then share what you have learned with your social media or other connections (and your LINKS!!!)

Being consistently consistent is what will help cause you to continue improving and growing your business. You get out of it what you put into it.

In addition to sharing on your own pages, be sure to share in the NLS FB group what you are learning and if you have a question or are stuck on some idea/concept, be sure to be as specific as you can so we can help.
